The history as "Powder" Specialists

Our challenge to world's best standard

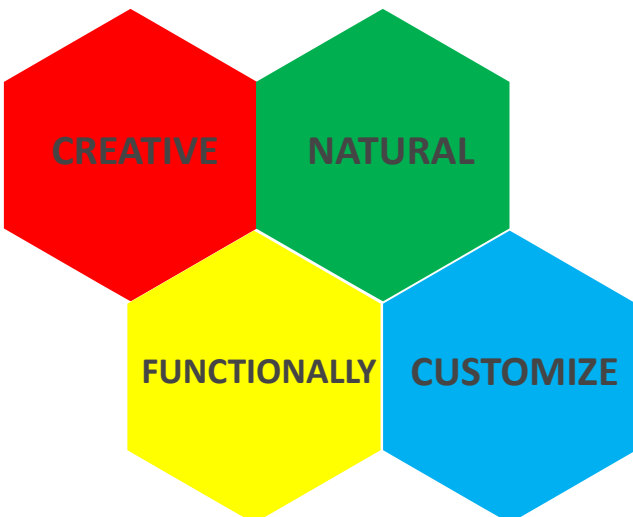

Nowadays, high-safety products are demanded not only in cosmetics industry but also various industries. Especially in EU, cosmetic products manufactured and quality controlled by following guideline of GMP(Good Manufacturing Practice) are started to be launched. It is following to all over the world.

We start to work for EFfCI to supply products with safe and high quality that is to say reliable products to customers. Our target to have EFfCI certification is 2022.

We aim in-demanded company from all over the world as "Powder" Specialists and "Cosmetic Raw Material" Experts.

* EFfCI : GMP for manufacturing cosmetic raw materials build by The European Federation for Cosmetic Ingredient

Wide range of products to meet worldwide market needs

We are trying to supply cosmetic raw materials which are satisfied with not only for domestic customers but also for overseas customers. We introduce products which are met regulation in each countries as knowing market needs. We try to develop new products by catching the latest trend in cosmetic industry. We have wide range of products with high functionality and also natural origin products considering SDGs.

We have a lot of experience to develop customized grades to meet customers' needs. Please feel free to contact us.
