

## RSPO SCC Certification renewal

DAITO KASEI GROUP's RSPO SCC certification obtained March 5, 2019 was renewed March 29, 2021.

Annual reassessment and certification renewal allow us to ship qualifying products as RSPO certified.

### 「RSPO (Roundtable on Sustainable Palm Oil) 」

Palm oil from oil palm tree is widely used in processed food, pharmaceuticals, cosmetics, and detergents. As a consequence, oil palm plantations have rapidly multiplied around the world. Unfortunately, severe issues regarding the environment and child labors have been reported due to the lack of proper management and control in these plantations. RSPO's mission is to make sustainable palm oil a standard on the global market.

### RSPO contribute to achieving the United Nations SDGs.

#### 「DAITO KASEI GROUP certificate scope」
